

# Introducing Philips CorePro LED PLC

The first LED PLC lamp designed to save energy and downsize costs

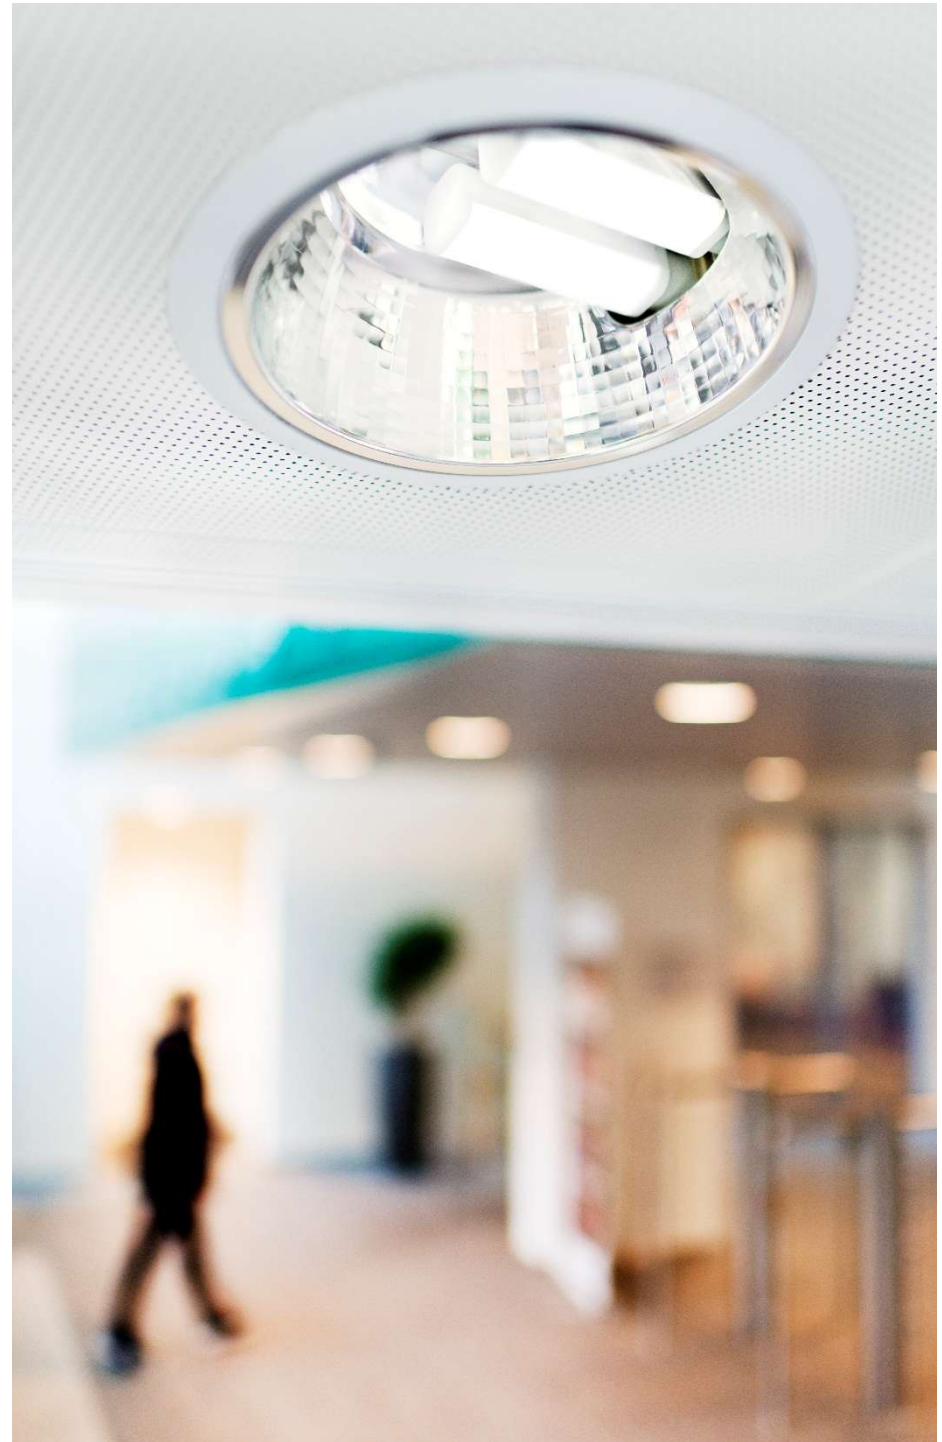

CorePro LED PLC is the first PLC lamp replacement for downlighters that provides up to 60% energy savings, a 3 times longer lifetime (30,000 hours) and a robust, shatter-proof plastic housing. A retrofit lamp that's simple to install, fits fixtures with EM or HF ballast and requires less maintenance and servicing. So you can downsize your downlighting costs with energy efficient LED.

**NEW!**  
The first LED  
PL-C lamp

## LED PL-C 6.5 & 9 W 4-pin

- First A-branded lamp for lamp replacement for conventional PL-C lamps with 4-pin sockets (HF-control gear).
- low energy consumption (> 60% energy saving) and long lasting (twice as long lifetime than fluorescent).
- Price fighter proposition for downlight luminaires in public buildings, corridors and hallways .
- For in office, retail or hospitality applications.
- **Not suitable for emergency lighting**

### What's new:

- In two color temperatures (3000 & 4000 K) and two wattage positions for G24q-2 and G24q-3 socket holders.
- Efficiency up to 120 lm/W.
- < 2 year pay-back, at affordable initial price point as alternative for LED Downlight luminaires.
- Rotating end-caps, to rotate light in the ideal direction.

3000 / 4000

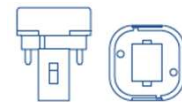

30,000 hours

non-dimmable

rotatable (ROT)

G24q-2 & G24q-3
